PROFESSIONAL SUMMARY

Computer Science undergraduate specializing in full-stack web development, blockchain, and practical AI applications. Experienced in building responsive MERN stack applications, engineering smart contracts, and leading peer learning communities and technical workshops.

EDUCATION

KIET Deemed to be University

2025–2029

Bachelor of Technology (B.Tech.) in Computer Science

TECHNICAL SKILLS

- **Languages:** C, C++, Java, Python, JavaScript, Rust, Solidity
- **Full-Stack Web:** ReactJS, Node.js, Express.js, MongoDB, Tailwind CSS, Vite, FastAPI
- **Blockchain & Web3:** Solidity, Ethereum, Solana, Cryptography
- **AI & Tooling:** Retrieval-Augmented Generation (RAG), Streamlit, Gemini API, Git, Figma, AWS

EXPERIENCE

Frontend Developer Intern

Apr 2025–Jun 2025

Youth Trust Foundation

- Built responsive CRM dashboard components and user portals using ReactJS, Vite, and Tailwind CSS.
- Translated Figma design prototypes into clean, modular code in collaboration with senior engineering teams.

Core Team Member

2025–Present

AI Skills Lab

- Co-organize technical bootcamps, hackathons, and skill-building workshops for an active student community.
- Mentor participants on practical AI implementation, development tools, and collaborative project execution.

Campus Ambassador

2025–Present

KIET Deemed to be University

- Coordinate campus outreach initiatives to increase student engagement in academic and extracurricular programs.

KEY PROJECTS

- **LandSys – Blockchain Land Ownership System:** Developed a decentralized platform on Ethereum using Solidity smart contracts for transparent property verification, title transfer, and lending.
- **JPN Tutor & Sensai AI:** Built an interactive Japanese language platform using ReactJS and Node.js integrated with Gemini AI for real-time conversational practice.
- **Music AI – Playlist Curator:** Engineered a mood-driven recommendation system using Python, Streamlit, and Retrieval-Augmented Generation (RAG) to tailor custom music playlists.
- **Campus Clean:** Designed an environmental reporting portal using the MERN stack to streamline campus sustainability tracking and issue reporting.

ACHIEVEMENTS

- **AWS Certified Cloud Practitioner** – Earned certification in core cloud concepts, security, and architecture.
- **Best Project Award (LOCK'IN Bootcamp)** – Received top honor for designing and deploying *LandSys*.
- **Top Performer** – Recognized for exceptional performance among participants at the LOCK'IN Bootcamp.
- **Problem Solving** – Solved 100+ algorithmic problems on [LeetCode](#).
