## PROFESSIONAL SUMMARY

Motivated and creative Computer Science undergraduate with hands-on experience in full-stack development, blockchain solutions, artificial intelligence, and community leadership. Skilled in building scalable web applications using the MERN stack, developing AI-powered solutions, and designing user-focused digital experiences. Proven ability to lead teams, organize technical events, and deliver innovative projects. Passionate about emerging technologies, problem-solving, and continuous learning.

## EXPERIENCE

### Campus Ambassador | KIET Deemed to be University (2025–Present)

Promote institutional initiatives, engage students in academic and extracurricular activities, and support event organization and outreach programs.

### Core Team Member | AI Skills Lab (2025–Present)

Manage and support a learner community, organize bootcamps and hackathons, and strengthen leadership, communication, and technical skills.

### Frontend Developer Intern | Youth Trust Foundation (Apr 2025–Jun 2025)

Contributed to CRM and portal development using ReactJS, Vite, and Figma under the guidance of senior developers while gaining practical frontend development experience.

## EDUCATION

Bachelor of Technology (B.Tech.) in Computer Science | KIET Deemed to be University (2025–2029)

## TECHNICAL SKILLS

**Full-Stack:** ReactJS, Node.js, Express.js, MongoDB, Tailwind CSS, Vite

**Blockchain & Web3:** Solidity, Ethereum, Solana, Cryptography

**Programming Languages:** Python, JavaScript, Java, C++, C, Rust, Solidity

## KEY PROJECTS

**LandSys – Blockchain-Based Land Ownership System:** Secure land ownership, transfer, and lending platform built on Ethereum with smart contracts in Solidity.

**JPN Tutor & Sensai AI:** Japanese learning platform with AI-powered guidance, built using ReactJS, Node.js, MongoDB, and Gemini AI.

**Music AI – AI Playlist Curator:** Mood-based playlist recommendation system developed using Python, RAG, and Streamlit.

**Campus Clean:** Environmental awareness and reporting portal built with ReactJS, Node.js, and MongoDB.

## ACHIEVEMENTS

- AWS Certified Cloud Practitioner
- Top Performer at LOCK'IN Bootcamp
- Solved 100+ LeetCode Problems

- Winner of Best Project Award at LOCK'IN for LandSys
